OBJECTIVE — AI-Focused Future Engineer

Motivated BS Software Engineering student (5th semester, UAF) with strong foundations in programming and hands-on experience building agentic AI systems using OpenAI SDK, Gemini 2.5 Flash, and Chainlit. Seeking to contribute to DEV- Weekend Mentorship 2025-2026 through innovation, rapid learning, and the ability to engineer practical AI-powered solutions.

TECHNICAL SKILLS

Languages: C++, Java, Python, Flutter (Basics)

AI & Frameworks: OpenAI SDK, Gemini 2.5 Flash, Chainlit

Developer Tools: Git/GitHub, VS Code, Postman, Figma, UV (Environment Manager)

Soft Skills: Leadership, Communication, Team Collaboration, Fast Learning

TECHNICAL PROJECT

Lexi – Intelligent Agent with Memory & Tool Usage

Tech: OpenAI SDK, Gemini 2.5 Flash, Chainlit, Local DB, UV

- Built a stateful conversational AI agent capable of storing and recalling previous sessions using a local database.

- Implemented multiple functional tools:

Time Tool — Fetches system time

Search Tool — Retrieves information from Wikipedia

Maths Tool — Handles arithmetic computations

- Designed a smooth conversational interface using Chainlit.

EDUCATION

BS Software Engineering — University of Agriculture Faisalabad (UAF)
(2023–2027) | CGPA: 3.45

Intermediate (ICS) — 890 / 1100

Matric — 1076 / 1100

CERTIFICATION

AI for Connectivity Hackathon Certificate of Completion

Awarded for outstanding performance, attendance, and successfully submitting a complete solution (Jan 24–26, 2025)
